# VDP-208

An Easy-to-Use CD/DVD Duplicator with an Automatic Disc Supply/Collection System
The VDP-208 features continuous 200-disc copying, high efficiency and reliability, compact chassis, etc., and was developed from the unique know-how of Otari, a leading manufacturer of machines for media and duplication industries.

- **Compact but Professional:** The VDP-208 provides simple operation and high productivity. Discs are supplied in mugs and ejected onto a spindle. This is a standalone machine that requires no additional PC, monitor, keyboard, etc.

- **Continuous 200-Disc Copying:** With its automatic disc supply/collection system and high disc capacity up to 200 discs, the VDP-208 can support long unattended operation. For example, 8x speed copying (with compare) of a 4.7-GB program to 200 DVD discs will complete in about 10 hours. If you set the VDP-208 before going home, 200 completed copies will be ready the next morning.

- **High Reliability:** For more secure production, the VDP-208 has a compare mode and write error disc rejection.

- **Effective Production System:** The VDP-208 also provides a Batch mode which with you can produce a required number of copies by just layering blank discs under the master disc and pressing START. The VDP-208 can flexibly handle various jobs from mass duplication of a single title, to limited copying of various programs. For frequent switching of copy programs, the internal hard disk drive can contain master data of up to 13 titles.

⚒ Specification

Number of Stacked Discs	Supply = max. about 200
	Eject = max. about 200
	Reject = about 30
	(the actual number depends on disc thickness)
CD/DVD±R/RW Drive and Drive Arrangement	8 drives stacked vertically
Supported Formats	CD-DA, CD-ROM (Mode 1, Mode 2), CD-ROM XA, Video CD,Hybrid,
	Mixed Mode, Photo CD, CD-Extra, DVD-ROM, DVD-Video
Productivity	CD-R (@700MB, 48x writing) = about 60 discs per hour
	DVD-R (@4.7GB, 16x writing) = about 42 discs per hour
	(theoretical value in Copy mode)
Controls	4 arrow keys, START and STOP keys, Power swicth
Dimensions (W×H×D)	430×545.2×584.6 mm
Weight	35 kg
Power Supply	100-120 or 220-240 VAC, single phase 50/60Hz
Power Consumption	0.35 kVA
